

ZOOM

High-Speed Urethane Clear

- FAST SETUP AND DRY FOR MAXIMUM PRODUCTIVITY
- MEDIUM-SOLIDS CONTENT IS EASY TO APPLY, WITH GOOD SPRAYABILITY, FLOW AND LEVELING
- MIXES 4:1 WITH 0065, 0075 or 0085 ACTIVATORS
- NATIONAL RULE COMPLIANT

ZOOM is a fast-drying urethane clear designed for spot and panel repairs, small refinish projects and other situations where fast throughput is essential. A new-and-improved formula makes ZOOM much more user-friendly with better buffability thanks to a new blend of resins that leave the clear easy to polish, even days after application.

V2010 is suitable for use over Kirker's BLACK DIAMOND Low-VOC Urethane Basecoats, ULTRA-GLO Single-Stage Urethane Topcoats, SPECTRA Series Urethane Candy Colors and other color systems.

Refer to Technical Data Sheet (available online) for more specific mixing and application directions.
